

SNAPPER SEAL

Features

- **C-TPAT / ISO PAS 17712 compliant high security seal.**
- Plastic coating will show evidence of tampering while also protecting against corrosion.
- Patented locking mechanism provides easy locking and a high tensile strength.
- Laser marked numbering on both bolt and body.

Material

- *Bolt & Body:* steel
- *Plastic coating:* ABS

Dimensions

Unit

Minimum hole size for bolt to pass through:
10.5mm diameter

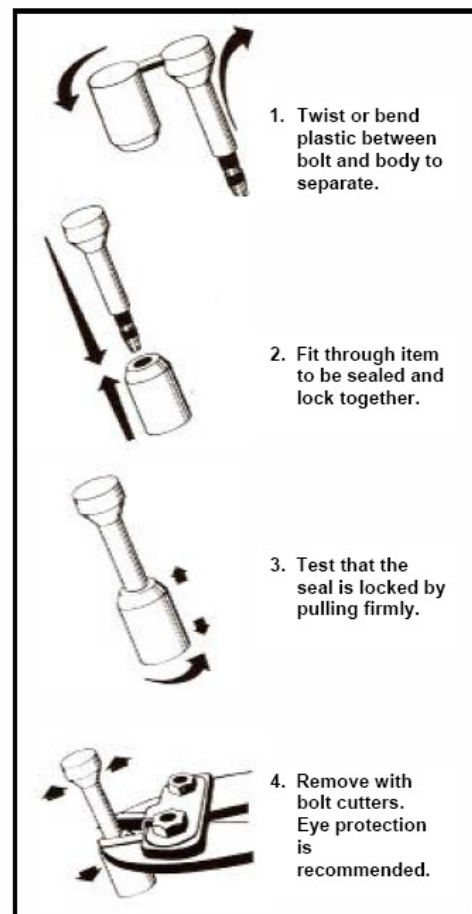

Carton (250 Units)

Size: 59 x 36 x 18cm

Weight: 19.1kg

Strength Characteristics

- *Tensile strength:* approx. 12.8kN (equivalent to ~1300kg)
- *Shear strength:* approx. 23.5kN (equivalent to ~2400kg)
- *Bending strength:* approx. 70.6Nm
- *Impact strength:* > 40.7J

SNAPPER - NUMBERED

EN00303	Blue
EN00308	Green
EN00312	Red
EN00314	Yellow
